

CERES Aerosol Datasets - Terra MODIS, Aqua MODIS, and NPP VIIRS MODIS-Like AOD Assimilation

David Fillmore

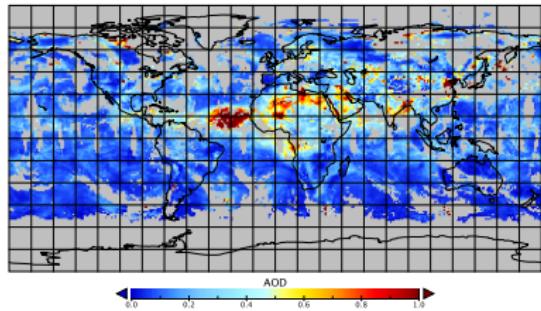

2015 May 6

CERES Science Team Meeting, NASA LaRC, Hampton, VA

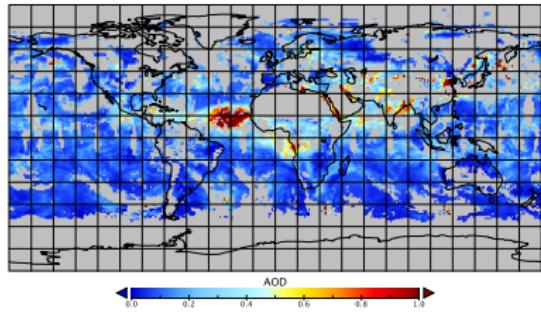

MODIS to VIIRS Transition and Aerosol Optical Depth Assimilation

- ▶ MATCH AOD assimilation generates hourly 3D aerosol fields for SARB radiative transfer model
- ▶ CERES Edition 4 MATCH uses Terra and Aqua MODIS 5.1 Ocean, Dark Target merged with Deep Blue
- ▶ Today look at Terra and Aqua MODIS 6, versus NPP VIIRS MODIS-Like AOD assimilation
- ▶ Use CERES Edition 4 MATCH

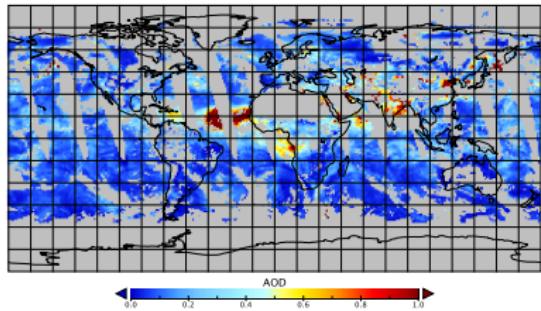

Terra and Aqua MODIS with DeepBlue C6 AOD 2013 06 01

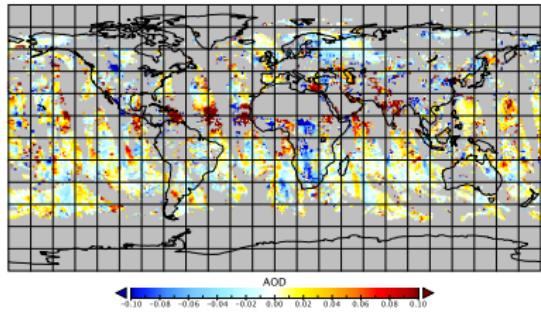

Terra and Aqua MODIS C6 AOD 2013 06 01

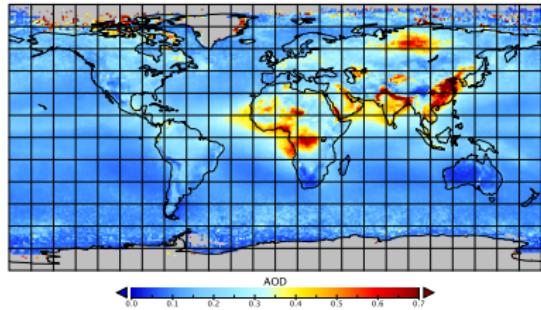

NPP VIIRS AOD 2013 06 01

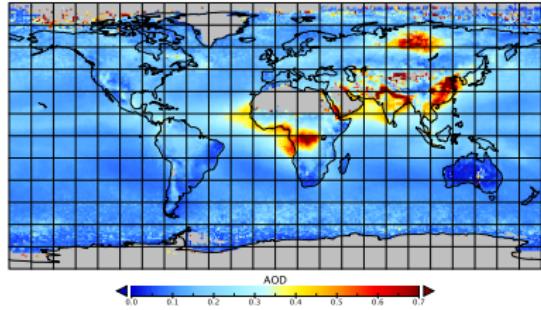

NPP VIIRS – Terra and Aqua MODIS C6 AOD 2013 06 01

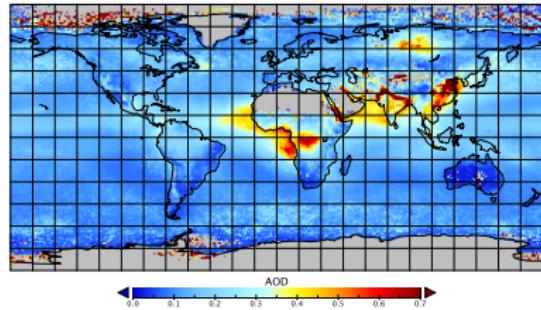

Terra and Aqua MODIS with DeepBlue C6 AOD 2013

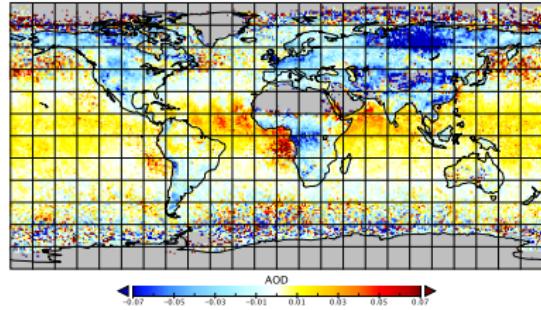

Terra and Aqua MODIS C6 AOD 2013

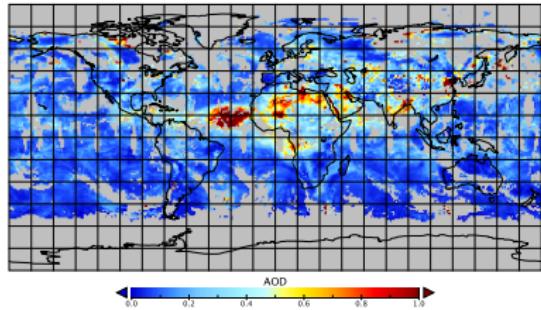

NPP VIIRS AOD 2013

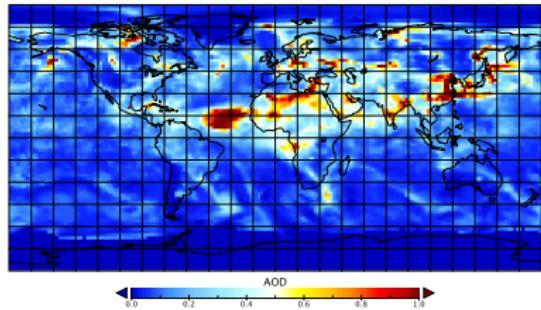

NPP VIIRS – Terra and Aqua MODIS C6 AOD 2013

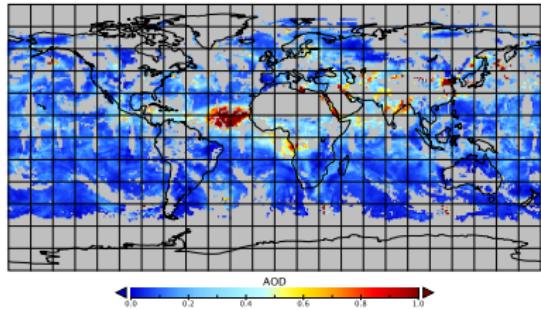

Terra and Aqua MODIS with DeepBlue C6 AOD 2013 06 01

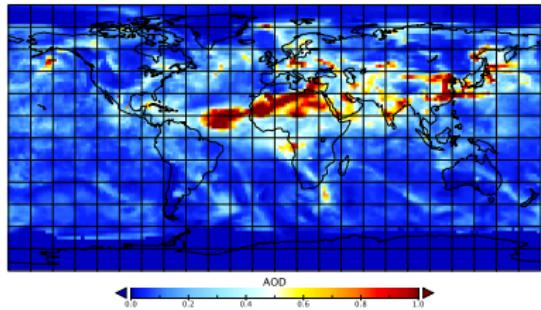

Assim Terra and Aqua MODIS with DeepBlue C6 AOD 2013 06 01

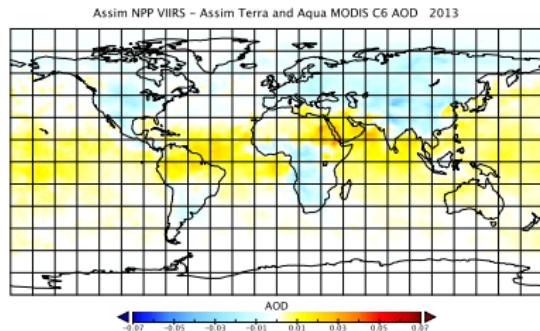

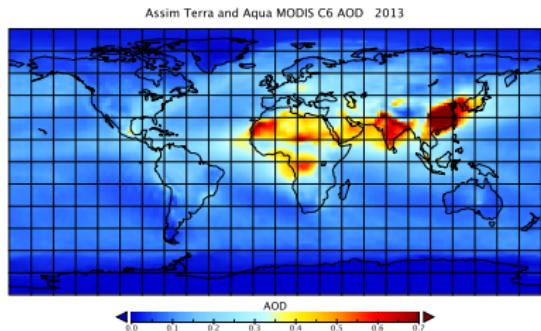

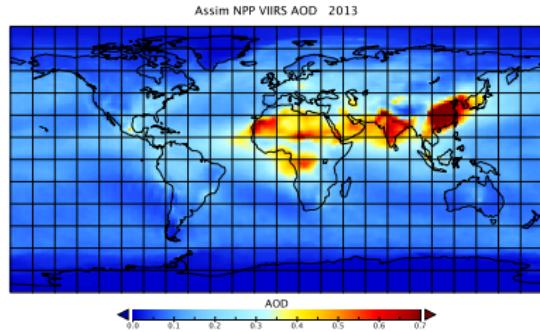

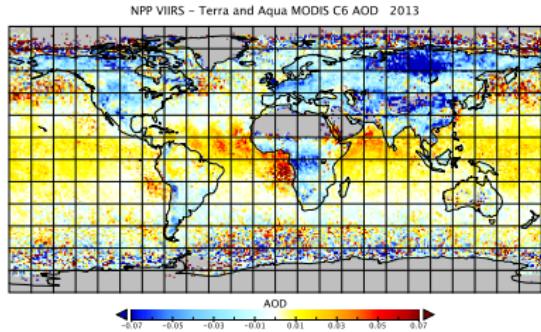

Terra and Aqua MODIS C6 AOD 2013 06 01

Assim Terra and Aqua MODIS C6 AOD 2013 06 01

Introduction
MODIS and VIIRS MODIS-Like AOD
Assimilation of MODIS and VIIRS MODIS-Like AOD
Conclusions

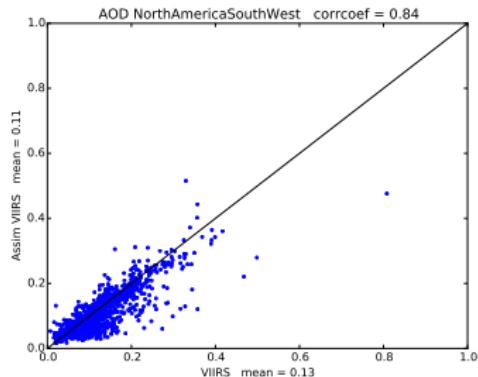

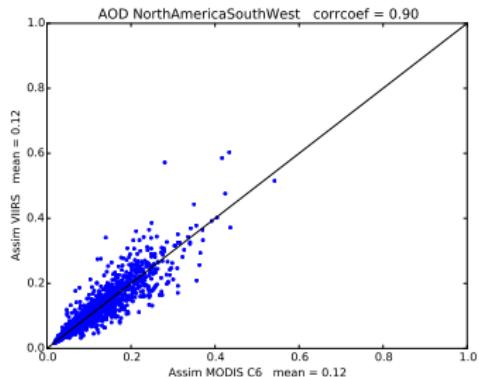

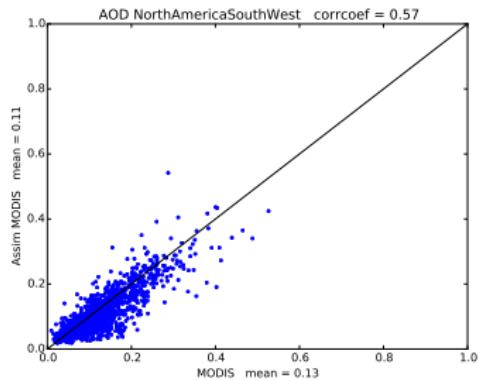

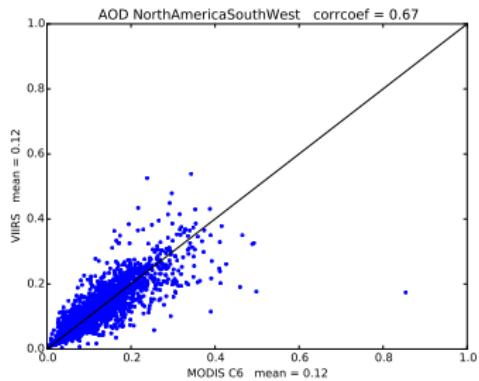

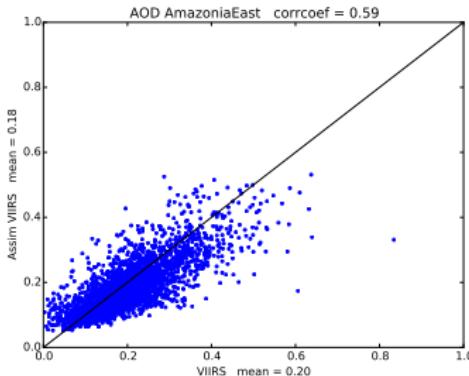

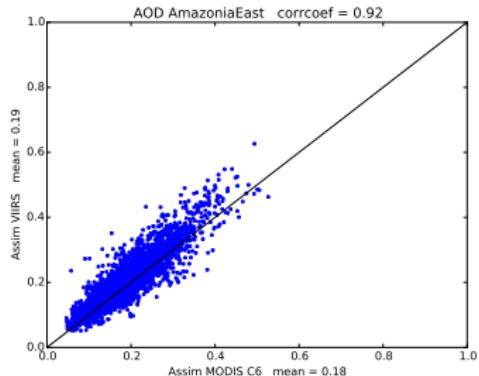

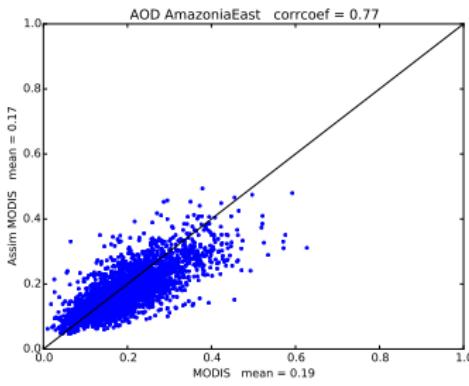

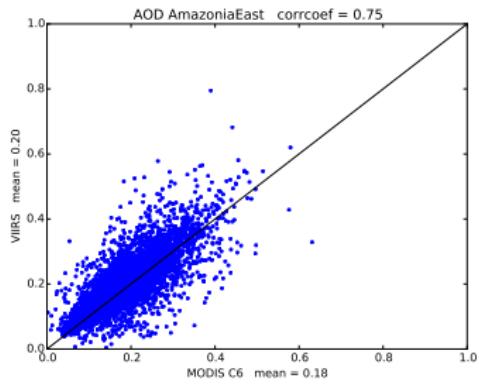

VIIRS v MODIS

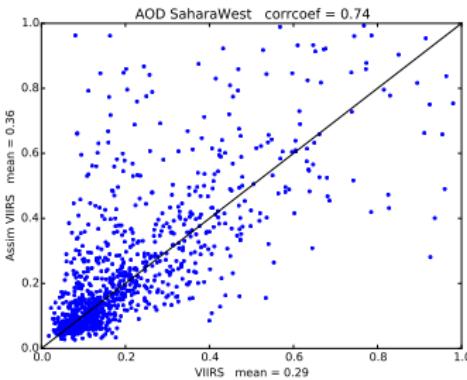

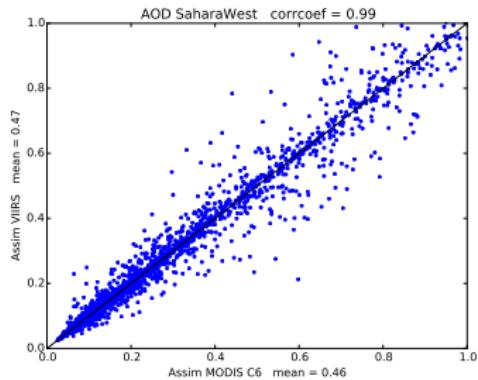

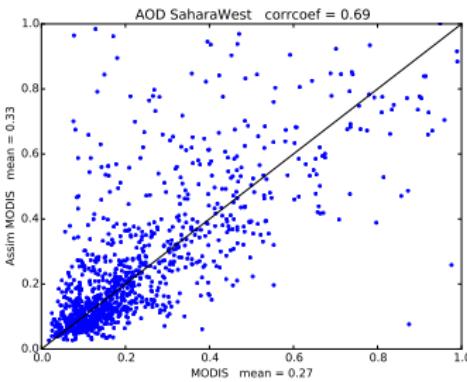

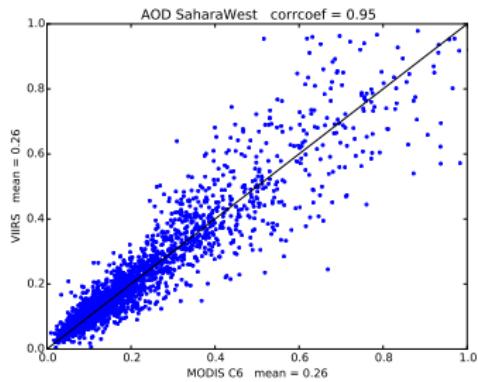

Assim MODIS v MODIS

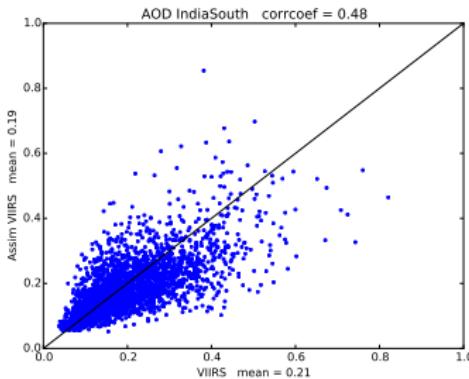

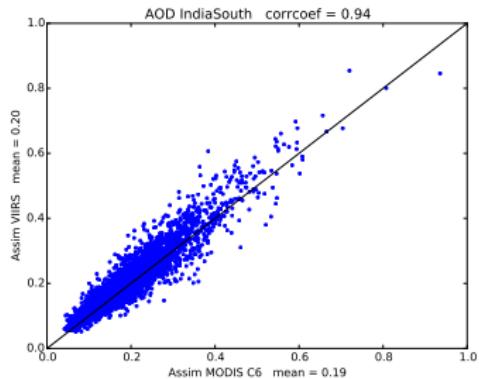

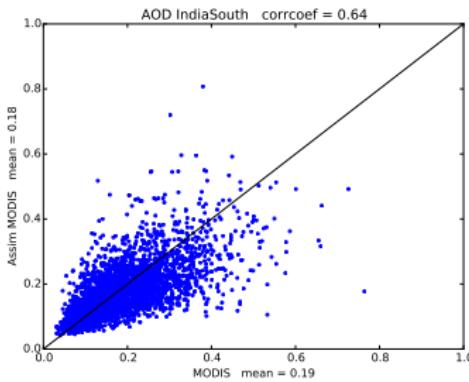

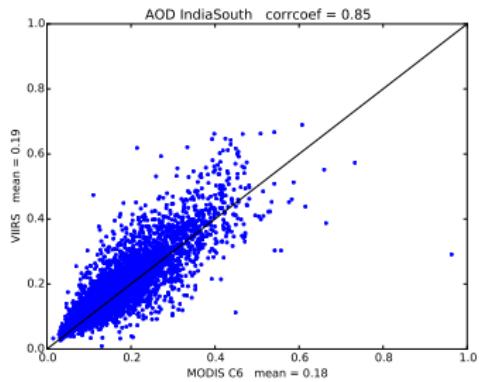

Assim VIIRS v Assim MODIS

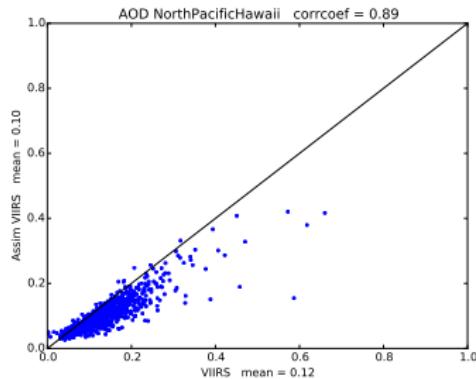

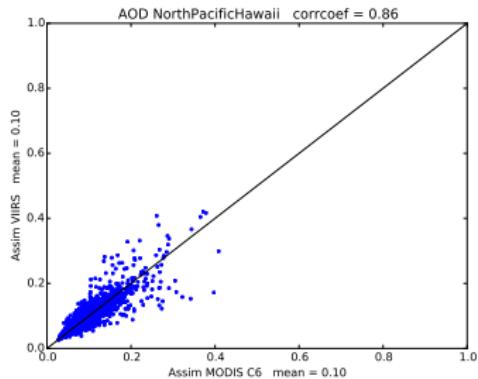

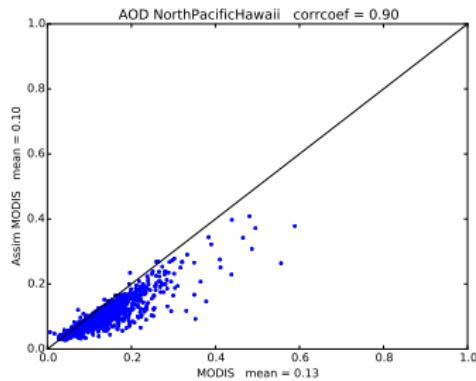

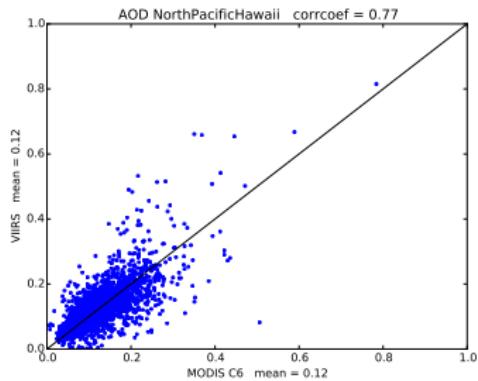

Assim VIIRS v VIIRS

Conclusions

- ▶ First pass at NPP VIIRS MODIS-Like AOD assimilation
- ▶ Assimilation in general reduces the bias between VIIRS and MODIS and improves correlation
- ▶ Potential improvements

Next

- ▶ want MODIS v Assim MODIS correlation high
- ▶ want VIIRS v Assim VIIRS correlation high
- ▶ *also* want Assim MODIS v Assim VIIRS correlation high
- ▶ Reformulate assimilation (cost function)
- ▶ Assimilation of merged VIIRS, MODIS (Deep Blue)?
